Personal Emergency
and Medication
Monitoring Systems

INDEPENDENCE WITH A PEACE OF MIND

Med Home Alert Emergency Response System can be activated at the push of a button. Whether you hear a strange noise or just aren't feeling well, the monitoring operator is there for you 24 hours a day.

MEDICATION COMPLIANCE WITH THE HELP OF MED HOME ALERT

The medical dispensing unit from Med Home Alert is easy to use, it has a secure lock, contains 28 slots to place medication and can be programmed to dispense up to 4 times a day. If a dosage is missed, no worries, the system will send a signal to a live operator who will attempt to notify you and if necessary your caregiver.

IS A MEDICAL ALERT SYSTEM OR MONITORED MEDICATION DISPENSING SYSTEM RIGHT FOR YOU?

1. Do you live alone?
2. Have you fallen or are you afraid of falling?
3. Do you use a cane or walker?
4. Do you have difficulty using steps or standing up?
5. Are your loved ones worried about you being alone?
6. Is it important for you to continue to live independently?
7. Are you taking 3 or more medications or medications more than twice a day?
8. Have you missed medications because you have forgotten to take them?
9. Are daily activities restricted by your medicine regimen?
10. Have you been hospitalized or fallen ill because you did not take your medication as prescribed?
11. Would having your medication dispensed for you accurately and timely provide peace of mind for you or your loved one?
